

Hot Metal® 2010 Trend Colours & Patterns.

Hot Metal 2010 colours Champagne, Chartreuse, Gold

Hot Metal is proud to be included in Colourways 2010 Colour Forecast resource pack. Colourways is Australia's peak independent colour forecasting body, established by the Design Institute of Australia. Its objective is to accurately forecast colour directions.

Three Hot Metal colours have been selected for 2010 by Colourways;

Gold, Chartreuse and Champagne.

These colours strongly depict 2010 colour trends in design. So, be on track and be inspired by incorporating Hot Metal laminate trend colours in your current and future designs.

Hot Metal laminate uses patent technology to combine the contemporary look of metal, with vibrant colours and handcrafted patterns. This innovative technique creates an expressive metal laminate, which reflects light in a way that enhances the surface finish to produce a striking and distinctive three-dimensional effect.

Being highly durable, lightweight and flexible, the applications for this creative laminate are endless. Hot Metal is a proven, versatile product that can be specified with confidence to deliver maximum effect - with a minimum of effort. Hot Metal is Australian designed and handmade. It is environment friendly and recyclable and is favoured by today's eco conscience architects and designers.

Hot Metal®the coolest trend in laminate.

Hot Metal® is Australian designed and manufactured, using handcrafted techniques. Hot Metal® is Patent protected.
