

**Stew Hot Metal® and Cannon Signs take award.**

STEW® Pty Ltd is proud to announce that Cannon Signs was awarded a Gold Medal for category 5 - Illuminated Signs or Images, in this year's first ever Australian Sign and Graphic Awards.

Cannon Signs designer, Richard Kingsmill, incorporated Hot Metal® in a clever way with neon lighting to add visual impact and appeal to his winning entry.

As expressed by industry spokes-people on the night, all 250 nationally represented entries were of a very high standard. This award showcased Cannon Signs talent and creative ability to use a unique and innovative product such as Hot Metal® in its signage design.

Well done Cannon Signs for taking part in lifting the signage industry to a new and dynamic level.

Hot Metal®...the coolest trend in laminate.
