

## Laminate options

Hot Metal's decorative horizontal applications such as tables, desks, bench tops, display units and dramatic centre pieces are winning appeal and design popularity. It is a metal laminate that produces an impressive, three dimensional effect giving decorative horizontals personality.

Hot Metal has a reflective quality which is beneficial to showcasing and displaying products. It is ideal for decorative surfaces in retail fit-outs, commercial fit-outs, particularly in reception, lobby and boardroom environments and for selected furniture pieces in high end residential projects.

It can be maintained with minimum effort, is cost effective, recyclable and environmentally sound.
