

Hot Metal News – 01/12 - [www.hotmetal.com.au](http://www.hotmetal.com.au)

**Hot Metal® Laminate is cool at school.**

Going to school doesn't have to be boring nor do school interiors have to be dull. Adding interest and excitement to an education environment can be done with eye catching design. This primary school's front administration office and main library desk was designed by Nairn Architecture using contrasting colours, shapes and textures. Hot Metal colours amethyst and chartreuse were blended with the random pattern to give a bright, happy look and a stimulating, positive feel to the interior.

*Hot Metal® .....the coolest trend in laminate.*

Hot Metal® is Australian designed and manufactured, using handcrafted techniques. Hot Metal® is Patent protected.
