

Hot Metal News — 07/07 - www.hotmetal.com.au

Hot Metal® environment friendly.

Hot Metal® laminate combines metal with outstanding colours and handcrafted patterns for striking dimensional effects that respond dramatically to lighting. Apart from its impressive effects and visual appeal, Hot Metal® environment friendly qualities are favoured by today's eco conscience designers and architects. Hot Metal® is made from aluminium which is a recyclable material. During Hot Metal®'s manufacturing process no solvents are used and there are no emissions, which means less pollution to the environment. Hot Metal® does not require harsh detergents or chemical cleaners to maintain its lustrous finish. Hot Metal® is a handmade Australian product which means its processes require low energy inputs which in turn helps preserve our energy resources and the environment.

Hot Metal®the coolest trend in laminate.

Hot Metal® is Australian designed and manufactured, using handcrafted techniques. Hot Metal® is Patent protected.
