

Hot Metal Laminate Splashbacks

Hot Metal laminate offers an ideal alternative to conventional splashbacks found in residential and commercial kitchens. Hot Metal splashbacks are distinct in appearance as they are practical. To create a unique looking, decorative splashback or to enhance a kitchen design, simply combine Hot Metal translucent colours with a handcrafted pattern for a stylish gloss finish.

Hot Metal laminate is made from aluminium making it fire resistant. It complies with Australian standards, making it suitable and safe as splashbacks in domestic and commercial kitchens. Hot Metal splashbacks are easy to install, functional, durable, and most importantly resist blemishes making them easy to clean.
