

www.hotmetal.com.au

Hot Metal® has now released a new, sparkling colour called Champagne. This colour has been added to the Hot Metal® colour collection as it offers sophistication and luxury to designs that are styled by simple elegance and glamour.

Hot Metal® laminate uses patent technology to combine the contemporary look of metal, with vibrant colours and handcrafted patterns. This innovative technique creates an expressive metal laminate, which reflects light in a way that enhances the surface finish to produce a striking and distinctive three-dimensional effect.

Being highly durable, lightweight and flexible, the applications for this creative Australian-made laminate are endless. Hot Metal® is a proven, versatile product that can be specified with confidence to deliver maximum effect - with a minimum of effort. In addition, Hot Metal® is recyclable and environmentally sound.
