

**Hot Metal® stands out from the crowd.**

In today's competitive retail market, excellent signage is imperative. A sign which stands out from the overwhelming number of existing signs is very important for forging an identity, branding and promoting business. Hot Metal gives impact and visual appeal to signage because its translucent colours and dimensional patterns have the ability to attract buyer's attention. Hot Metal laminate can also be combined with other mediums or materials to enhance or produce an outstanding sign.

Hot Metal is Australian designed and made with eco friendly processes. It offers the opportunity to stretch the imagination to create unique, powerful signage.

*Hot Metal® .....the coolest trend in laminate.*

Hot Metal® is Australian designed and manufactured, using handcrafted techniques. Hot Metal® is Patent protected.
